The divorce lawyers and family law attorneys at the **Law Offices of Jack L. Moser, Jr.**, welcome you gather information and educate yourself on the various issues in family law and domestic relations. Our lawyers, attorneys, and staff believe that clients should educate themselves as much as possible regarding the legal issues of their case. However, we also caution that a client should not equate such self-education with a full understanding of the legal process itself, which may then lead to conflicts with their attorney.
